

EXISTING SERVICE CONTRACTS FOR PROPERTY

This form will be used to reference any existing service contracts for your property. Please include along with this form a copy of your existing contract with the Contractor or all the specific information requested. Please leave any sections that do not apply blank. We will maintain the contracts with your preferred service providers and pay the invoices we receive on your behalf.

We do require that the service provider use email communication with us, they send invoices in a timely manner for payment, and they contact us directly when it is time for service associated with the contract. *Please note that for emergencies we reserve the option to use our Approved Contracts if needed.
